Why
Don't you give your heart the same chance you do the other organs?
Why? Because when any other organ is in trouble, it refuses to work, and you hasten to repair it.
The heart, the ever faithful servant, never refuses as long as it has power to move, but continues to do the best it can, getting weaker and weaker, until it is past repair, and then stops. It is just as sick as the other organs, but because it will work you let it.
However, it's not too late for a "change of heart," so remember.

Dr. Miles' Heart Cure
will give your heart strength and vitality to overcome Dizziness, Palpitation, Short Breath, Faint Spells, Pain in Heart and Side, and all other Heart aches and difficulties.
"My heart would ache and palpitate terribly, and at times I could hardly breathe. Dr. Miles' Heart Cure has restored me to perfect health, and I am very grateful."
